Technical Skills

Languages and Farmwork: HTML, CSS, JavaScript, ReactJS, NextJS, Shadcn, Bootstrap, Tailwind Css
Other Skills: Git and GitHub, API integration

Projects

Client Portfolio Website (React.js) | *GitHub* | *Live Demo*   **March 2025**

- Developed a **responsive, interactive portfolio** for a video editing service using React.js, Next.js, and Shadcn UI.
- Implemented **custom animations** (e.g., counting views with useState/useEffect), smooth scrolling, and dynamic FAQs.
- Designed a **mobile-first layout** with CSS Grid/Flexbox and optimized performance using lazy loading for videos.
- Add also Calendly Library for scheduling and meeting
- **Tech Stack:** React, CSS3, Git.

Interactive Portfolio | *GitHub* | *Live Demo*   **August 2024**

- Built a **fully responsive portfolio** using modern frontend technologies (HTML5, CSS3, JavaScript).
- Implemented **interactive animations** with CSS/JS and a mobile-first design approach.
- Integrated **Swiper.js** for project showcases and smooth navigation.
- Designed and deployed a personal portfolio showcasing 8+ mini projects with Swiper.js integration.
- **Tech Stack:** HTML5, CSS3, JavaScript, Swiper.js, Git.

Online Music Streaming Platform | *GitHub* | *Live Demo*   **July 2024**

- Developed a **full-featured music streaming PWA** using React, Context API, and React Router with 18+ songs.
- Implemented **audio management** with play/pause, volume control, seekbar, and dynamic background gradients synced to album art.
- Built **playlist creation** with CRUD operations (localStorage persistence), drag-and-drop song reordering, and custom cover selection.
- Added **search functionality** with real-time filtering and keyboard navigation.
- Designed a **responsive UI** with CSS Grid/Flexbox, animated transitions, and mobile-first principles (100/100 Lighthouse accessibility score).
- **Tech Stack:** React, Context API, Custom Hooks, CSS3, Local Storage API.
-

Personal Projects/Awards & Achievements

Online Music Streaming Platform | *React, Context API, LocalStorage*

- Online Music Streaming Platform | React, Context API, LocalStorage
- Built a Spotify-inspired PWA with playlist management, real-time search, and audio controls (play/pause, volume, seekbar).
- Optimized performance with lazy loading and CSS animations (95+ Lighthouse score).

Education

Bhakt Kavi Narsinh Mehta University   **Aug 2022– Sep 2024**
Bachelor of Science in Information Technology   *Una, Gujarat*
